Overview. Airline reservation systems incorporate airline schedules, fare tariffs, passenger reservations and ticket records. An airline's direct distribution works within their own reservation system, as well as pushing out information to the GDS.

Airline reservations system - Wikipedia

An airline alliance is an aviation industry arrangement between two or more airlines agreeing to cooperate on a substantial level. Alliances may provide marketing branding to facilitate travelers making inter-airline codeshare connections within countries. This branding may involve unified aircraft liveries of member aircraft.. In 2015, Star Alliance was the largest with 23% of total scheduled ...

Airline alliance - Wikipedia

NDC (New Distribution Capability) standards were established by IATA to better enable communications across the airline ecosystem. ATPCO is the trusted bridge between IATA's NDC and traditional distribution methods. We're leading the industry into the future by delivering all air price content via NDC APIs, connecting all industry members, and creating one community-driven marketplace ...
