

AP CHEMISTRY CHAPTER 5 6 STUDENT NOTES

### ap chemistry chapter 5 pdf

AP Chemistry . A. Allan . Chapter 5 - Gases . 5.1 Pressure . A. Properties of gases 1. Gases uniformly fill any container 2. Gases are easily compressed 3. Gases mix completely with any other gas 4. Gases exert pressure on their surroundings a. Pressure = force/area B. Measuring barometric pressure 1. The barometer a.

Peterson's Master AP Chemistry was designed to be as user-friendly as it is complete. It includes several features to make your preparation easier. Overview Each chapter begins with a bulleted overview listing the topics that will be covered in the chapter. You know immediately where to look for a topic that you need to work on. Summing It Up

AP Chemistry: Thermochemistry Lecture Outline 5.1 The Nature of Energy Thermodynamics is the study of energy and its transformations. Thermochemistry is the study of the relationships between chemical reactions and energy changes. Kinetic Energy and Potential Energy Kinetic energy is the energy of motion:  $E = mv^2 / 2$  Potential energy is the energy an object possesses by virtue of its position.
