Acupuncture is a form of alternative medicine in which thin needles are inserted into the body. It is a key component of traditional Chinese medicine (TCM). As such, acupuncture is considered a pseudoscience because the theories and practices of TCM are not based upon modern scientific knowledge. There is a diverse range of acupuncture variants originating in different philosophies, and ...

INTRODUCTION. It is estimated that up to 84 percent of adults have low back pain at some time in their lives [].The vast majority of patients seen in primary care (>85 percent) will have nonspecific low back pain, meaning that the patient has back pain in the absence of a specific underlying condition that can be reliably identified [].For most of these individuals, episodes of back pain are ...
