

COLOR CORRECTION FOR DIGITAL VIDEO USING DESKTOP TOOLS TO PERFECT YOUR  
IMAGE

## **color correction for digital pdf**

Color grading is the process of improving the appearance of an image for presentation in different environments on different devices. Various attributes of an image such as contrast, color, saturation, detail, black level, and white point may be enhanced whether for motion pictures, videos, or still images.

In digital imaging systems, color management (or colour management) is the controlled conversion between the color representations of various devices, such as image scanners, digital cameras, monitors, TV screens, film printers, computer printers, offset presses, and corresponding media. The primary goal of color management is to obtain a good match across color devices; for example, the ...
