Research comprises "creative and systematic work undertaken to increase the stock of knowledge, including knowledge of humans, culture and society, and the use of this stock of knowledge to devise new applications." It is used to establish or confirm facts, reaffirm the results of previous work, solve new or existing problems, support theorems, or develop new theories.

Indigenous education specifically focuses on teaching indigenous knowledge, models, methods, and content within formal or non-formal educational systems. The growing recognition and use of indigenous education methods can be a response to the erosion and loss of indigenous knowledge through the processes of colonialism, globalization, and modernity. ...

Power and Knowledge. These debates about approaches and value would be very different if power imbalances were not present. The power to involve or exclude, to marginalise or legitimate, is the critical difference between the dominant culture and indigenous peoples (Agrawal 1993, Agrawal 1996 cited in Grenier 1998).

L'internationalisme correspond à un ensemble de positions idéologiques diverses et parfois antagonistes qui, par différence ou par opposition au nationalisme, défendent des programmes politiques et des intérêts sociaux par-delà les frontières. Il est particulièrement défendu au sein du mouvement ouvrier (inspirée notamment du marxisme et du socialisme libertaire) qui prône la ...
