International Journal of Environmental Chemistry (IJEC) aims at bringing into the light the domain of environmental chemistry. It creates a forum for researcher and scholars in this field to deal with the problems of atmospheric, aquatic and soil chemistry. The journal publishes the most significant new research papers or any other original contribution in the form of reviews and reports in ...

The "right size" department: The official vision statement of the department is "to inspire and educate students, today and for the future, in the concepts and skills of chemistry and biochemistry; to prepare them to think about, to work with, and to enjoy the concepts of chemistry and biochemistry."

### **Chemistry and Biochemistry - CSU, Chico**

Possession of a bachelor's degree in any major with at least 30 semester (45 term) credits in one or a combination of the following: biochemistry, biology, botany, chemistry, crop and soil science,

### **ENVIRONMENTAL QUALITY ANALYST - michigan.gov**

Biochemistry, sometimes called biological chemistry, is the study of chemical processes within and relating to living organisms. Biochemical processes give rise to the complexity of life.. A sub-discipline of both biology and chemistry, biochemistry can be divided in three fields; molecular genetics, protein science and metabolism. Over the last decades of the 20th century, biochemistry has ...

Unconventional oil and natural gas extraction enabled by horizontal drilling and hydraulic fracturing (fracking) is driving an economic boom, with consequences described from “revolutionary” to “disastrous.” Reality lies somewhere in between. Unconventional energy generates income and, done well, can reduce air pollution and even water use compared with other fossil fuels.
