New Criticism. A literary movement that started in the late 1920s and 1930s and originated in reaction to traditional criticism that new critics saw as largely concerned with matters extraneous to the text, e.g., with the biography or psychology of the author or the work's relationship to literary history.

What's the Bottom Line? How much do we know about yoga? Although much research has been done on the health effects of yoga, many of the studies have included only small numbers of people and have not been of high quality. Therefore, in most instances, we can only say that yoga has shown promise in helping to manage a particular health condition, not that it has been proven effective.

General relativity is a theory of gravitation that was developed by Albert Einstein between 1907 and 1915. According to general relativity, the observed gravitational effect between masses results from their warping of spacetime.. By the beginning of the 20th century, Newton's law of universal gravitation had been accepted for more than two hundred years as a valid description of the ...
