This document establishes the guidelines for method selection and the procedures for verification of standard method performance, as well as the

ORA LABORATORY PROCEDURE Document No.: Version No.: 1.7

A test method is a method for a test in science or engineering, such as a physical test, chemical test, or statistical test. It is a definitive procedure that produces a test result. In order to ensure accurate and relevant test results, a test method should be "explicit, unambiguous, and experimentally feasible.", as well as effective and reproducible. A test can be considered an observation ...
