### **Is This a Trick Question?**

A question is an utterance which typically functions as a request for information. Questions can thus be understood as a kind of illocutionary act in the field of pragmatics or as special kinds of propositions in frameworks of formal semantics such as alternative semantics or inquisitive semantics. The information requested is expected to be provided in the form of an answer.

Not everything works for content type application/json.. If you are using Ext JS form submit to upload file, be aware that the server response is parsed by the browser to create the document for the <iframe>.. If the server is using JSON to send the return object, then the Content-Type header must be set to text/html in order to tell the browser to insert the text unchanged into the document body.
