Animal husbandry is the branch of agriculture concerned with animals that are raised for meat, fibre, milk, eggs, or other products. It includes day-to-day care, selective breeding and the raising of livestock. Husbandry has a long history, starting with the Neolithic revolution when animals were first domesticated, from around 13,000 BC onwards, antedating farming of the first crops.

[4] Ease of Use – There's only one way you can determine how easy something is to use and – by getting people to test it! We asked everyday folk, just like you, to build a website and interviewed them after about what they thought. They also scored different tasks based on how difficult they found them and the average score is what you see on this chart.
