Junior Cycle Science Rationale 4 Rationale Science is a collaborative and creative human endeavour arising from our desire to understand the world around us and the wider universe.

Junior Cycle Science - curriculumonline.ie

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

The politicization of science is the manipulation of science for political gain. It occurs when government, business, or advocacy groups use legal or economic pressure to influence the findings of scientific research or the way it is disseminated, reported or interpreted. The politicization of science may also negatively affect academic and scientific freedom.
